Verdemed is a Canadian medical cannabis company working to improve the health of millions of patients in Latin America. Based in Toronto, Verdemed’s multi-level and multi-market approach seeks to bridge the gap between the pharmaceutical and medical cannabis landscapes in Europe and North America and the clinical needs of patients and doctors in Latin America.

The Company’s international footprint provides strategic access to both effective natural cannabis therapies and innovative new products. Verdemed plans to offer a wide range of cannabinoid-based medications to Latin America in the coming years and expects these products to be fully approved by the regulatory agencies in the region, such as ANMAT, Anvisa, COFEPRIS, DIGEMID, Invima, and ISP.

With its Canadian-based products, Verdemed is uniquely positioned to address the steep regulatory hurdles in Latin America. The Company aspires to become the platform of choice for global innovators seeking to enter Latin America with new medical cannabis products.

Verdemed combines Canadian cannabis industry expertise with smart Latin American capital, general pharmaceutical business knowledge, superior regulatory affairs capabilities and top-tier medical experience. Verdemed is building the medical cannabis brand of choice for Latin America.
